CAPITOL SALOON

....AND....

LODGING HOUSE,

(Opposite State Capitol.)

MISS JENNIE FORREST,

PROPRIETRESS.

no bar is supplied with the best brands of

Wines, Liquors and Cigars.

The rooms are lofty, airy and equal to any in the State.
aug 29

ALL SORTS.

—The Curries got on first water.
—George Baker of Eureka, is in the city.
—There was a great gay-on the small pox.
—Lung Protectors at Thaxter's Drug Store.
—Hem-stitched Silk Handkerchiefs, twenty-five cents a piece, at Olcovich Bros.
—The blizzard seems to have spent its force and the thermometer is rising cheerfully.
—We will have pretty decent weather now. At least that's what Roberts and Latta say.
—The Reno papers record the death of the infant child of Dr. Mayo Greenlaw in Reno.
—Mr. Summerfield's address on the Press, at the Teacher's Institute in this city was a very clean cut forcible piece of work.
—Collins the man who sells bark from Lake View flume says that since he began to advertise his business, he has been on the dead run to fill orders.
—All the mills along the Carson river, except the Morgan, are frozen up. This necessarily will make the bullion yield of the Comstock very light for January.

—The sun dogs appear on each side of the sun every morning. This is caused by the reflection on the frost flakes in the air and is a sort of snow rain-bow.

Mr. Sproule, of the Elko Free Press, writes C. W. Friend that at Elko the temperature is 60 degrees below zero and requests that signal service instruments may be sent him.

—Those who live out of town noticed a sharp band of yellow light rising from the scene of Folsom's fire, clear to the zenith. At times the band was segregated into several smaller ones and looked like an *aurora borealis*.

—Ayer's Hair Vigor improves the beauty of the hair and promotes its growth. It prevents the accumulation of dandruff, cleanses the scalp, and restores a natural color to grey hair. Have you received Ayer's Almanac for the new year?

School Apportionment.
The following is the first semi-annual apportionment of School Monies for 1888 on the basis of \$3.-23009 per census child:

Churchill.....	92	\$ 297 17
Douglas.....	300	969 03
Elko.....	930	3,003 98
Emeralda.....	223	720 31
Eureka.....	720	2,325 66
Humboldt.....	617	1,992 97
Lander.....	538	1,737 79
Lincoln.....	454	1,466 46
Lyon.....	479	1,547 21
Nye.....	186	600 80
Ormsby.....	1,025	3,310 84
Storey.....	2,705	8,737 39
Washoe.....	1,228	3,966 55
White Pine.....	331	1,069 17
Total.....	9,828	\$31,755 33

The first column of figures denotes the number of children between 6 and 18 years of age.

The second column denotes the amount apportioned.

The Rarest of Combinations.
The delicacy of flavor with the efficacy of action has been attained in the famous California liquid of Figs. Its pleasant taste and beneficial effects have rendered it immensely popular. It cleanses the System, cures Costiveness, etc. For sale by George C. Thaxter, agent.

Victims of the Blizzard.
MINNEAPOLIS, Jan. 16.—A Mandan, Dakota, special to the Journal says: The mail driver was frozen to death between New Salem and Stanton.

The three day blockade on Northern Pacific was raised this morning. The Journal's revised list of blizzard fatalities shows 97 deaths in Dakota, 13 in Minnesota, 6 in Iowa, 17 in Nebraska and 2 in Montana, total, 135, besides 55 reported missing.

Died of His Wound.
NEVADA CITY, Jan. 15.—J. P. Boardman, who shot himself with suicidal intent Tuesday morning, died of his wounds last evening. Deceased was a native of England and was about 60 years of age. He came to this country in 1850.

HAL CLAYTON.

A Good Word for Him from a Pioneer.

SAN FRANCISCO, Jan 16, 1888.
TO THE EDITOR OF THE APPEAL:—I notice an item going the rounds, from your paper, regarding the growth of Hal Clayton's beard. In this article you speak of him as a gambler. He did play at cards occasionally, as most of us did in the old days, but he was by profession a lawyer, and one of the leading lawyers on the Coast.

You were misinformed as to his business, and I would like to see the error corrected in the paper where it originated, and also would like to see every paper that copied the item make the same correction.

A PIONEER.

In connection with the above we state that a correction was made regarding Mr. Clayton's profession the day after the original item appeared. The writer, who had never known Mr. Clayton in his life, inferred from a conversation he had with an old friend of Clayton, that he was a gambler. The party who talked of Clayton's feats at card playing called at the office next day and made the explanation that he had not mentioned him as a lawyer, as he supposed everyone knew of his professional standing at the bar. This was how the item crept into print. No reflection on his memory was intended. The following from the Alta, gives a brief summary of the facts in his career:

"Hal Clayton arrived at Carson as poor as a baby, but with talents of a high order he was soon recognized as one of the leaders of the legal profession. As a criminal lawyer he was considered the peer of his associates. Successful in mining suits, there soon came to him a large clientele, with generous fees. The income from his profession and from successful mining investments soon made him one of the solid men of Carson."

FOLSON'S FIRE.

A Blaze Which Costs About a \$1,000.

The fire at Folsom's wood yard which broke out between 10 and 11 o'clock on Monday night was caused by the catching of some saw-dust near the engine which he used to propel his circular saw. The men who fired the engine in the morning built a small blaze of chips and bark to warm their hands and then smoldered all day and spread through the saw-dust. The fire department was quickly on hand and the I. E. James from the V. & T. R. R. shops was run up the track and did effective work. The flames were soon quenched but the building was gutted and the engine and saws almost ruined. Loss about \$1,000 no insurance. Much sympathy was expressed for Mr. Folsom who was just "getting on his feet" as the phrase goes. He has secured an engine of Fred Dangberg and will be running to-morrow.

THE GALE AT THE LAKE.

It Twists Kaiser's Hotel and Scatters His Hay.

The gale at the Lake last Saturday came on Kaiser's new hotel with a whirlwind and twisted the structure so that the carpenters have been lifting it back in place with jack screws ever since. He also had two tons of hay on his barge, and 5,000 feet of rustic lumber. The wind lifted the lumber and hay high in air and scattered them all over Glenbrook. Men have been out ever since gathering up the lumber, but they have hard work gathering the hay.

Roll of Honor—Miss Davies' Class.

Idelle Atherton Frank Bryant
Lee Bright Ella Foley
Nellie Fowler Mabel Gates
Minnie Isbell Laura Kelley
Arthur Latta Bertie Mills
Nevada Olcovich Frank Saxton
Elva Schneider

* The pupil whose name is marked thus has not lost a mark during the month.

Mrs. McDonald Acquitted.

Everyone here was delighted yesterday when they learned that Mrs. McDonald had been acquitted in San Francisco, and the jury only out an hour. The defense was insanity.

A NEEDLESS ALARM.

Dr. Guion's Mistake Regarding His Small Pox Case.

Day before yesterday Dr. Guion was called on to treat a case in the Southern part of the city. He pronounced it small pox. On this authority it was so repeated in the APPEAL. Yesterday morning he informed the writer that since the case had developed he was satisfied that it was not small pox but black measles. Inside an hour after he reported the case there was great excitement in the city, and Thaxter's drug store was crowded with people purchasing all sorts of preventives and disinfectants. Dr. Guion telegraphed to Virginia City for vaccine virus, and the Enterprise of yesterday in mentioning the matter stated that small pox had broken out here. By noon yesterday the fact that it was a case of black measles instead of small pox was generally known and the excitement subsided. The fact that there is small pox all about us however, should cause the authorities to be fully prepared in case it should come this way.

THE BARLEY CORNER.

Frank Craven Proposes to Smash it.

Frank Craven is just now engaged in smashing what he calls the "Genoa Barley Corner." He says the ranchers up there have formed a "combine" and propose to lift the price of barley to 4 cents a pound, or as near to it as they can.

Craven says he "got on" to the scheme and telegraphed to Sacramento for 200 tons of barley with an option of 60 days on 300 more. The barley will be here to-day and Craven wishes to announce that he will sell it at 1.53 per hundred. He don't care a cent he remarks whether he clears money on the goods or not, but he proposes to smash the barley corner in short order and will continue to ship and sell until the rates come down to such figures that a teamster can feed his horses without mortgaging his house. Hence 1.53 will be Craven's barley rate until further notice. Frank says that when it comes to barley he will fight any one from Jay Gould down to that question.

THE SHARON CASE.

A Decision Expected Shortly From the Supreme Court.

The decision of the Supreme Court in the Sharon divorce case is likely to be given before the end of the month. It will be remembered that Judge Sullivan awarded the plaintiff (now Mrs. David S. Terry) alimony and counsel fees and ordered the defendant to pay them. From this order an appeal was taken to the Supreme Court. It is rumored that two decisions are being prepared, a majority and minority decision of the Justices on the Supreme bench, and that the majority report is in favor of the plaintiff. Nothing, however, is really known except that a decision will be given before January 31st.

Dr. S. Harmon, Optician.

Dr. S. Harmon, of St. Petersburg, Russia, the well-known and practical optician, will be at the Ormsby for some time. The doctor has a number of genuine testimonials from prominent men throughout the Union. He is the inventor of several devices whereby the exact strength of the eye may be measured and the slightest defects detected. Every lens is tested to agree exactly with the eye before being set; both the glass and genuine Brazilian pebble lens. He makes glasses to suit each eye, then mounts them after having been thoroughly tested. His apparatus for testing the eyes and the glasses are his own invention, and are a curiosity of themselves. He also has a large lot of selected glasses of the best makes. Anyone with poor eyes, or who wishes to secure perfectly fitting spectacles to order should give him a call, at room 40, Ormsby House.

—When the eyes become weak or the lids inflamed and sore, a disordered system or a scrofulous condition of the blood is indicated, for which Ayer's Sarsaparilla is the best remedy. It invigorates and vitalizes the blood and expels all humors.

HOLIDAY ANNOUNCEMENT!

—OF THE—
EMPORIUM.

75 Doz.

FINE SILK and TINSEL SCARFS

75 Doz.

Plain and Fancy Silk Handkerchiefs.
